I. Welcome Messages

1. Message from The President of EUSA

Dear Friends,

It is with great pleasure and appreciation that I extend a warm welcome to all our Organising Committees, athletes, partner universities, member and associated member institutions across Europe.

As we embark on another exciting chapter in the European University Sports Association's journey, I would like to express my deepest gratitude for the commitment, energy, and collaboration you continuously bring to our shared mission. Your involvement is the cornerstone of every successful event, initiative, and milestone we achieve.

The European Universities movement continues to grow, thanks to your trust and dedication. Whether you are hosting a Championship, supporting student-athletes, or engaging in our educational and social responsibility projects, your contributions are shaping the future of university sport in Europe.

Our achievements in recent years, from the record-breaking European Universities Games to the expansion of our membership network, are a testament to the strength of our community. This success would not be possible without your invaluable partnership and the spirit of cooperation that defines our work together.

As we look forward to the 2025 European Universities Championships and beyond, I am confident that, together, we will continue to deliver impactful experiences for students, foster lasting international relationships, and inspire the next generation through sport.

Looking ahead, I invite all of you to join us for the 2025 European Universities Championships and to prepare for the European Universities Games 2026 in Salerno, Italy. These events are set to be even more inspiring as we strengthen the role of university sport in fostering inclusion, excellence, and cross-cultural dialogue across Europe.

As always, our achievements are the result of collective efforts. My sincere gratitude goes to our Member Federations, Organizing Committees, volunteers, partners, and the EUSA staff for their dedication and enthusiasm. I also thank FISU and the European Commission for their ongoing support, which enables us to expand our impact year after year.

Thank you for being an essential part of the EUSA Family. The championships are an opportunity to recognise and celebrate our collective efforts.

Let's make 2025 another landmark year for university sports and the upcoming years!

Adam Roczek
EUSA President

2. Message from The President of NUSA

Dear Athletes,

On behalf of the entire Polish Student Sport Association, I am honored to extend a warm and heartfelt welcome to capital of Poland for the **Eupoean Universities Combat Championships**. It is a privilege to host you, the finest student athletes from across Europe.

This championship is more than just a competition; it is a celebration of the unique spirit that drives student sports. You represent the very best of your universities and your countries, balancing the demands of your academic studies with the rigorous pursuit of athletic excellence. Your commitment and passion are a true inspiration to us all.

Beyond the fights, tatamis, and rings, we hope you take the time to explore our vibrant city. Immerse yourselves in its culture, discover its history, and, most importantly, connect with your fellow athletes. These connections are what make these championships truly special, forging friendships and memories that will last a lifetime.

I have no doubt that you will compete with the highest levels of skill, dedication, and sportsmanship. May you all have an unforgettable experience, and may the best athletes win.

Welcome, and good luck!

Prof. dr hab. Alojzy Nowak

President of University Sport Association of Poland

3. Message from The President of OC EUC

Dear Participants of the European Universities Combat Championships 2025 in Warsaw,

On behalf of the Warsaw branch of the Academic Sports Association (AZS Warszawa) – the organizer of this major university sports event held in the capital of Poland – I would like to extend a warm welcome to you and wish you both successful performances and a pleasant stay in our beautiful city.

You can be sure that you will be met here with the kindness and hospitality of both the organizers and the people of Warsaw, who greatly value fair sporting rivalry and are open to becoming friends with students from across Europe.

The European Universities Combat Championships 2025 in Warsaw will take place from August 22 to 25, 2025, bringing together student-athletes from four martial arts disciplines: karate, kickboxing, judo, and taekwondo. Participants will represent 400 universities from 32 European countries. A total of 1,480 people will take part – 1,131 athletes and 349 coaches, physiotherapists, medical staff, and team coaches.

I am confident that both the sporting competition and the accompanying events – as well as your stay in our capital – will bring you a sense of satisfaction and many good memories.

Please feel at home in Warsaw, and remember the old academic motto “Primus inter pares” – “First among equals” – because each and every one of you is already a winner simply by taking part in the European Universities Combat Championships 2025 in Warsaw.

Once again, I wish you a rewarding experience at the Championships and many enjoyable moments beyond sport.

Prof. Marek Konopczyński, PhD, dr h.c.

President of OC

President of Warsaw University Sport Association

4. Message from The Marshal of the Mazowieckie Voivodeship

Dear Guests,

It is my great pleasure to welcome all participants of the European Universities Combat Championships 2025, held here in Warsaw. We are about to experience an unforgettable four-day event, filled with thrilling sports moments, intense emotions and unexpected surprises.

Practicing martial arts is much more than developing physical fitness, strategic thinking and the ability to respond swiftly to an opponent's moves. It is accompanied by a broader life philosophy rooted in the pursuit of self-improvement, inner harmony and becoming a better person. Martial arts are a true school of willpower and character, shaping personality and strengthening the spirit.

We are deeply honoured to host in Mazowieckie Voivodeship young athletes of karate, kickboxing, judo and taekwondo, representing over 400 universities from across Europe, along with their coaches and team members. This event is a wonderful opportunity to promote Mazovia. Poland's largest region radiates positive energy and continues to grow dynamically, attracting young people from all over the world. Warsaw is home to many thriving academic institutions, boasts excellent sports facilities and is a modern European capital open to international cooperation and building bridges through sport. Its residents warmly welcome students from across Europe, for whom competition on the mat is also a chance to meet new people, discover different cultures and strengthen bonds with peers from all corners of the continent.

I invite you to enjoy the exciting combat performances, which teach us that the path to victory lies through humility, self-control and mutual respect. I wish all athletes success in their competitions, satisfaction with their achievements and many future triumphs. I warmly greet all participants and hope your time in Mazovia will be both enjoyable and inspiring.

May the best win!

Adam Struzik

Marshal of the Mazowieckie Voivodeship

5. Message from The Mayor of Warsaw

Dear Athletes, Coaches, Organizers, and Guests,

It is my great pleasure to welcome you to the European Universities Combat Championships 2025. We are honoured to host such a prestigious event, bringing together nearly 1,500 participants from over 400 universities and 32 countries across Europe.

Over the course of these championships, Warsaw becomes not only the capital of Poland but also the European capital of academic martial arts. Disciplines such as karate, kickboxing, judo, and taekwondo represent not only physical competition and skill but, above all, serve as an expression of respect, determination, and the spirit of fair play, values that are particularly close to our hearts.

I would like to extend my sincere thanks to the Academic Sports Association Warsaw and the European University Sports Association for organizing this event. We are proud to provide participants with a friendly, safe, and inspiring environment where athletes can compete at the highest level and form lasting friendships.

I wish all participants great success, unforgettable experiences, and a pleasant stay in our beautiful and vibrant city.

Rafał Trzaskowski
Mayor of Warsaw

II. General info about EUSA

1. About EUSA

The European University Sports Association (EUSA) is an umbrella organization that comprises National University Sports Associations (NUSA) from 47 European countries, providing sporting activities, educational events, and expertise in policy making and programming. The organization is well known within the sector as a safe and strong voice for university sports in Europe, promoting fair play values and supporting their membership by partnering with European Sports Federations and lobbying within the European Union, the Council of Europe, and other institutions for funding to improve the provision of sport. EUSA is a proud and active associated member of the International University Sports Federation (FISU), strategically cooperating also with other Continental University Sports Federations (CUSF), as well as key governing bodies and organisations active in the field of sport, education, and youth.

Since its founding in 1999, EUSA has organised 16 seasons of the European Universities Championships, attracting student-athletes to 204 university competitions held across Europe. In five previous editions of the European Universities Games, around 19.500 student-athletes from across Europe have participated in the different sporting competitions organised during these multi-sports events.

Through its Institute, EUSA also engages in several social responsibility projects and initiatives on various topics, including Anti-Doping, Dual Career, Equal Opportunities and Inclusion, Good Governance, Mobility, Safeguarding, Skills Development, Sustainability, and Volunteering. Many of the projects are supported by the European Union.

2. EUSA EC, Commissions, and Office

The highest body is the General Assembly, composed of representatives of the member associations, which elects the Executive Committee. Its members are responsible for the administration and running of EUSA and the execution of the main directives taken by the Assembly.

The EUSA Executive Committee is led by the President, Adam Roczek, 1st Vice President, four Vice-Presidents, Treasurer, and Secretary General.

Various EUSA commissions are in place to provide assistance and guidance to the many different activities EUSA is involved in. These commissions include the Technical Commission, Control Commission, Education Commission, Inclusion and Diversity Commission, Medical Commission, Student Commission, Branding and Marketing Council, and also other working bodies.

EUSA's headquarters is located in Ljubljana, Slovenia, where a dedicated team of 12 staff members plus 4 volunteers/interns work together to manage daily operations and oversee international activities. As part of the European University Sports Association (EUSA), they play a vital role in supporting the development and promotion of university sports across Europe, ensuring smooth coordination of events, effective communication, and strong collaboration among member organizations.

1. About Host Country – Poland

Poland, located in the heart of Europe, is a country rich in history, tradition, and natural diversity. Known for its welcoming atmosphere and well-developed infrastructure, Poland is an ideal destination for international gatherings and events, providing a unique mix of historical significance and modern convenience.

Poland's landscapes are diverse and breathtaking. From the sandy beaches of the Baltic coast to the picturesque Tatra Mountains and the tranquil Mazurian Lakes, there's no shortage of natural beauty to explore. National parks, forests and countryside offer opportunities for outdoor enthusiasts and nature lovers to immerse themselves in Poland's pristine wilderness. Poland is a modern and dynamic society, with bustling cities like Warsaw, Krakow, and Wroclaw serving as hubs of innovation, commerce, and culture. The country has undergone rapid economic development since the fall of communism, with a thriving tech sector, vibrant startup scene, and growing international presence.

The country has a proud sporting tradition, hosting numerous international events and nurturing a strong sense of community through sports and cultural initiatives. With a history that spans over a thousand years, Poland boasts UNESCO World Heritage sites, medieval castles, and vibrant cultural festivals.

Officially the Republic of Poland is a country in Central Europe. It is divided into 16 administrative voivodeship provinces, covering an area of 312,696 km² (120,733 sq mi). Poland has a population of over 38 million and is the fifth most populous member state of the European Union. Warsaw is the nation's capital and largest metropolis.

As a member of the European Union and NATO, Poland plays a vital role in shaping the future of Europe. The country is an important political and economic player on the European stage, contributing to regional stability, cooperation, and integration.

General Information about Poland:

- **Capital:** Warsaw (Warszawa).

- **Government:** A democratic republic with a president as the head of state and a prime minister as the head of government.
- **EU Member:** Poland joined the European Union in 2004.
- **Emergency number:** 112

2. About Host City - Warsaw

Warsaw - Capital City of Poland

The metropolis stands on the River Vistula in east-central Poland. Its population is officially estimated at 1.86 million residents within a greater metropolitan area of 3.1 million residents, which makes Warsaw the 7th most-populous city in the European Union. The city area measures 517 km² (200 sq mi) and comprises 18 districts, while the metropolitan area covers 6,100 km² (2,355 sq mi). Warsaw is an alpha global city, serving as a major cultural, political, and economic hub, and the country's seat of government. It is also the capital of the Masovian Voivodeship.

Nestled along the banks of the Vistula River, Warsaw seamlessly blends its storied past with contemporary developments. The cityscape is a juxtaposition of historic architecture, reconstructed landmarks, and sleek skyscrapers, showcasing its resilience and ability to adapt over the centuries.

One of Warsaw's most striking features is its meticulously reconstructed Old Town, a UNESCO World Heritage Site. After being heavily damaged during World War II, the Old Town was painstakingly rebuilt to its former glory, complete with charming cobblestone streets, colorful buildings, and picturesque squares. St. John's Archcathedral and the Royal Castle are among the architectural gems that anchor this historic district.

Beyond the Old Town, Warsaw boasts a thriving cultural scene. Renowned museums like the Warsaw Uprising Museum and the POLIN Museum of the History of Polish Jews provide insights into the city's tumultuous past. Meanwhile, art galleries, theaters, and music venues contribute to a lively cultural landscape.

Warsaw is also a city of green spaces, with numerous parks and gardens offering respite from urban bustle. Łazienki Park, with its tranquil lakes and neoclassical palace, is a favorite spot for locals and visitors alike to unwind and enjoy nature.

In recent years, Warsaw has emerged as a dynamic economic hub, attracting businesses, startups, and entrepreneurs from around the world. Its modern skyline is dominated by sleek office towers and luxury apartments, symbolizing the city's forward-looking spirit. But amid the modernization, Warsaw hasn't forgotten its roots. Traditional Polish cuisine thrives in the city's restaurants and cafes, offering hearty dishes like pierogi (dumplings), żurek (sour rye soup), and bigos (hunter's stew). And throughout the year, festivals, concerts, and cultural events celebrate Warsaw's heritage and diversity.

Overall, Warsaw is a city of contrasts, where history meets innovation, and old traditions mingle with contemporary trends. Whether exploring its historic streets or embracing its modern amenities, visitors to Warsaw are sure to be captivated by its dynamic energy and enduring charm.

WARSAW – City of Students

Education in Warsaw is characterized by its diversity, quality, and accessibility, reflecting Poland's commitment to providing comprehensive learning opportunities for its citizens. Warsaw boasts a rich academic tradition dating back centuries, with renowned institutions like the University of Warsaw leading the way in research and teaching. This tradition fosters a culture of intellectual curiosity and academic excellence among students and faculty.

It is estimated that there are over 255 000 students in Warsaw.

Warsaw is home to several universities, ranging from large comprehensive institutions to specialized academies. While the exact number may vary slightly due to mergers, closures, or new establishments, there are around 80 higher education institutions in Warsaw. These include major institutions like the University of Warsaw, Warsaw University of Technology, Warsaw School of Economics, Medical University of Warsaw, and many others, each offering a diverse array of academic programs and research opportunities.

WARSAW – What is there to see?

Number	Name	Short description
1	The Royal Castle in Warsaw	This magnificent castle served for centuries as the official residence of Polish monarchs. It was initially the home of the Dukes of Masovia and, from the 16th century onward, became the seat of the Polish–Lithuanian Commonwealth, housing both the King and the Parliament.
2	The Warsaw Old Town	After being leveled when the Nazis left, this entire neighborhood—with its cobblestone Gothic streets and alleyways, Baroque palaces, numerous churches, and tiered burghers' houses—was masterfully reconstructed to reflect the atmosphere of bygone days.
3	The Warsaw Uprising Museum	The Museum is a tribute from the residents of Warsaw to those who fought and died for an independent Poland and its free capital. The exhibition depicts the fighting and daily life during the Rising, with the terror of the occupation as a backdrop.
4	Lazienki Park	The Royal Łazienki was King Stanisław August's summer residence, where classical architecture blends harmoniously with its natural surroundings and fabulous gardens.
5	Palace of Culture and Science (panoramic view)	Considered one of the the highest building in Poland, this monumental skyscraper (built circa 1955) contains 42 floors, reaching a height of 230.68 meters (756.82 feet) and topped with a 43-meter (141.08-foot) spire.
6	POLIN Museum of History of Polish Jews	The POLIN Museum is the first and only museum dedicated to restoring the memory of the civilization created by Polish Jews over the course of a millennium. The building itself faces the Monument to the Ghetto Heroes in Warsaw.
7	Vistula Boulevards	<p>The Vistula Boulevards are one of Warsaw's most vibrant outdoor destinations. Stretching along the river's left bank, they offer scenic promenades, bike paths, green spaces, sun loungers, mini-beaches, and riverside cafés. In summer, the area comes alive with food trucks, open-air concerts, art installations, and the spectacular Multimedia Fountain Park show. It's a perfect spot for walking, cycling, rollerblading, or simply relaxing by the water.</p> <p>Enhancing this riverside experience is a new pedestrian and cyclist footbridge that opened in 2024. Spanning 452 meters, it connects Powiśle with the Praga district, creating a seamless, car-free link between the two banks of the Vistula. The modern design includes wide walking lanes, seating areas, and beautiful nighttime lighting, making it both a practical crossing and an architectural highlight.</p>

8	Wilanów -Museum of King Jan III's Palace	<p>Wilanów Palace is one of Poland's most treasured historic landmarks—a magnificent Baroque residence built in the late 17th century for King Jan III Sobieski. Often referred to as the "Polish Versailles," the palace blends European grandeur with Polish heritage.</p> <p>Surrounding the palace is a vast and beautifully designed park, featuring formal French gardens, romantic English-style landscapes, sculpture-filled terraces, and charming lakeside paths. Each section of the garden reflects different eras and styles, offering a peaceful escape just outside the city center.</p> <p>Visitors can explore the lavish palace interiors, enjoy seasonal art exhibitions, and stroll through colorful flowerbeds, tree-lined alleys, and ornate garden architecture. Wilanów is a favorite destination for both history lovers and nature enthusiasts.</p>
9	Museum of Sport and Tourism	<p>The permanent exhibition, entitled “The History of Polish Sport and the Olympic Movement,” showcases the history of sports from ancient Greece through the first modern Olympic games to the present day. Located on a 1,000-square-meter exhibition area, you can find examples of sports art, technical gear, medals, trophies, antiques, and other memorabilia. Your journey through the history of sport will start in Olympia, where you will become familiar with the pentathlon, pygme, and other ancient disciplines.</p>
10	Copernicus Science Centre	<p>The Copernicus Science Centre is one of the largest science centers in Europe. Its exhibition is divided into six interdisciplinary parts with over 400 exhibits. Music is combined here with biology, and mathematics with architecture. Science enters the realm of feelings, and visitors themselves may become the object of observation.</p>
11	Polish Vodka Museum	<p>The museum presents an incredible journey from the origins of Aqua Vitae and the 500-year history of vodka to its modern stance in Poland and the world. It is a place of education through entertainment. The highly interactive galleries and professional guides create a unique blend of experiences that guarantee unforgettable memories.</p>
12	Służewiec Racetrack	<p>The biggest and most popular racetrack in Warsaw opened for the first time in 1939. Służewiec has been added to the heritage list of Warsaw City. Currently, beyond thrilling horse races, Służewiec Racetrack hosts sports and cultural events, concerts, galas, film sets, and photo shoots. Varsovians visit the grounds to spend time in its unique natural surroundings. During the EUC, we will visit this place for the Opening Ceremony.</p>

3. University Sport in the Host Country

UNIVERSITY SPORTS ASSOCIATION OF POLAND – 116 years of tradition

The University Sports Association (*abbreviation in Polish: AZS*) is the biggest students organization in Poland. It was established in 1909 upon the initiative of Cracow Jagiellonian University students, thus we are 116 years old now. Our main statutory purpose is to promote all activities related to physical training, education, sports and tourism among students and employees of Polish universities and colleges.

The AZS is one of the most vital sports associations in Poland. During the period between two World Wars it was a forerunner in the development of many sports branches in Poland and contributed greatly to the establishment of other Polish sports associations. The Organization took a dominating position in such sports disciplines as: athletic sports, ball games, swimming, ice hockey, rowing, tennis, mountaineering. In those disciplines AZS introduced a number of pioneer methods in rational training and established its first foreign relations in the field of sports as Poland regained its state sovereignty after the First World War.

After the Second World War AZS continued its activity while particularly emphasizing the universalism of physical training and sports practice among university students in general. An AZS club was established almost in every university and college in Poland. Currently, AZS counts around 225 university clubs with over 38 000 members.

Professional sport

Around 8000 athletes registered in National Sports Federations practice in AZS clubs, among them Olympic, European, World and Universiade medalists. The AZS raised many members of Polish national teams and national record holders as well as medalists of the Olympic Games. 16 AZS representatives won medals of Tokyo 2020 Olympic Games (held in 2021), and the gold medalists are: Kajetan Duszyński, Małgorzata Hołub-Kowalik, Natalia Kaczmarek, Dariusz Kowaluk, Justyna Święty-Ersetic, Anita Włodarczyk, Dawid Tomala, Karol Zalewski.

Sports for all

Among main activities of the AZS one can enumerate organization of competitions and tournaments between universities and colleges at local, regional and national level. These are series of 80 events played in 43 sports disciplines with the participation of around 10 000 students every year. Numerous seminars and conferences are organized in order to promote the sports values and to form pro-sport attitude in the society. AZS provides and develops educational and training systems for coaches, leaders and volunteers.

Social activities

Annually, the AZS organizes numerous Summer and Winter camps for students. Promotion of active tourism is also one of the main targets of the Association. AZS clubs offer students rallies and excursions, allowing them to socialize by discovering the beauty of the country. Many international youth programs and exchanges promoting culture, sports and European integration (including the Erasmus+ Program) are conducted.

International university sports

The AZS is an active member of FISU and EUSA since their creation. The strong representation of Polish AZS members in the governing and technical bodies of these international student sports federations ensures a very active presence of AZS within the FISU and EUSA structures. For instance, **in 2022, AZS not only actively participated in, but also organized, two prestigious events: the EUSA 6th European Universities Games in Łódź (July 2022) and the FISU World University Canoe Sprint Championship in Bydgoszcz (September 2022).** Our representative, Adam Roczek, is the President of the European University Sports Association (EUSA), and Marian Dymalski is a Vice President of the International University Sports Federation (FISU).

4. Supervision, Control and Arbitration Commission (SCAC)

The SCAC is the highest authority of the EUC Combat Sports 2025 and controls overall organizational and technical aspects of the event. The SCAC is responsible for the interpretation of EUSA Regulations, for the supervision and smooth running of the EUC Combat Sports 2024, settling any dispute, examining and dealing with any complaints or protests of a nontechnical nature, taking emergency sanctions against participants (teams or individuals) who violate the EUSA Regulations, deciding of any other matters not covered in these Regulations, at the time of the EUC.

Partial accreditation of teams is not possible!

Accreditation is done for the entire sports team for a particular sport and a particular university. The accreditation process is carried out by the Head of the Delegation or another person authorized by the registered university.

Head of delegation (or another person authorized by the registered university) should be the person who is going to do the accreditation process for entire University. Only one person can go to accreditation centre bringing all the documents!

Please note that data entered in the Quantitative Entry Forms is considered as relevant data for the payments of the Participation fee (payment made to the Organizing Committee) and EUSA Entry Fee (payment made to EUSA).

Amounts due to be paid are calculated based on numbers registered through quantitative entries and pro-forma invoices are generated automatically. There is possibility to download them from the EUSA system any time by clicking on "View invoice".

IMPORTANT!

There is no possibility to pay any outstanding fees (not paid by bank transfer) at the time of registration.

Accreditation process

The accreditation process will be carried out in 4 steps.

Step 1: Data reconciliation and financial status check

Step 2: Sport & OC Services

Step 3: EUSA Control Commission – final verification

Step 4: Welcome Gifts Distribution

Accreditation card

The Accreditation Card is the only official and valid document for EUC Combat Sports 2025 participants; therefore it must always be clearly visible in order to access restricted event areas. Monitoring of access will be achieved through the Accreditation Cards, which will be checked at all site entrances. Depending on their category, each participant will be allowed to access certain zone. People not holding an Accreditation Card or holding a Card which does not have the required access rights will not be allowed to enter.

The accreditation card is non-transferable, as each card contains personal data and personalised access rights. **Improper usage of personal Accreditation Cards is prosecutable by law and will be reported to the Security Operational Center.**

Lost of Accreditation card

In case of loss of the Accreditation Card, participant must personally approach the OC Accreditation Center and report the loss by using valid Identification document (passport or ID card). 7. Safety and Security rules

Safety and Security in Warsaw

The safety and security of all participants at EUC Warsaw 2025 is of paramount importance to the Organizing Committee. Although Warsaw is a safe city, please take note of the following safety tips recommended by the OC.

All security measures during the championship will be provided by a private security company, working in close cooperation with the Police and Municipal Police.

It is compulsory to wear your accreditation cards during the competition and to comply with regulations in all establishments.

Emergency number: 112

Safety in Accommodation

A **security guard** is present at all accommodation facilities in case of an emergency.

- Always lock your room when you leave, even if you're only gone for a few minutes.
- Only officially registered guests are allowed to enter the accommodation.
- **The reception of unregistered guests is strictly prohibited.**
- Never lend your room or residence keys to anyone.
- Inform the accommodation staff immediately of any lock defects or lost keys.

Safety on the streets and public transport

Warsaw is a relatively safe city, but you should avoid walking alone at night in isolated areas. Be aware of your surroundings when walking outside, especially if you are listening to music on your headphones or talking on a mobile phone. Avoid taking your original passport and important documents with you (make copies and take them instead). Avoid revealing cash or expensive items. Do not leave laptops, books or other valuable items unattended in common areas. Respect pedestrian lights and zebra crossings. It is recommended to avoid conflict situations and to respect basic rules of conduct.

When travelling by bus or tram, be aware of your surroundings and do not put valuable items in easily accessible pockets. Pickpocketing is not common in Warsaw, but it does happen. If you are the only passenger on a bus or tram, sit as close to the driver as possible. At night, when getting off the bus, pay particular attention to oncoming traffic.

Items prohibited at all venues

The restricted items policy applies to spectators and accredited individuals at the EUC Warsaw 2025

3. Volunteers Program

Volunteering is a valuable opportunity to gain practical experience, develop new skills, and take an active role in the organization of a sporting event. It allows individuals to apply knowledge from their studies or personal interests—whether in logistics, management, languages, technology, or tourism—within a real-world, international environment.

By joining the volunteer team, participants become part of a collaborative effort that supports the smooth and successful delivery of the event. Volunteering also provides a chance to meet people from diverse backgrounds, build new friendships, and experience the unique atmosphere of a major sports event from behind the scenes.

In addition to contributing to key operational areas, volunteers are encouraged to engage with the broader values of sport, such as teamwork, inclusion, respect, and fair play. Volunteering promotes personal development, helping individuals strengthen important skills such as communication, adaptability, problem-solving, and leadership.

Volunteers may also take part in side activities organized during the event, including training sessions, workshops, cultural exchanges, and friendly competitions. These experiences make volunteering both meaningful and enjoyable, offering a well-rounded way to spend time while contributing to the success of the event.

- Accommodation provided for 60 volunteers

- Participation of international Volunteers

- Full board and local transportation

- 5 Volunteers coordinators and leaders

- 11 areas of volunteering support (logistics, sports, results, transport and more)

- Volunteers from National University Sport Associations from all over Europe

5. Anti-doping Policy

Doping is not a guarantee of success in sport. In fact, its effect is usually the opposite. A lot of elite sportsmen and sportswomen who did doping got caught. As a result, they lost pride and were banned for at least 2 years from participating in a sport they loved and lived for. An even bigger problem of doping are the effects on the body.

In elite sports, doping is defined as a violation of one or more anti-doping rules:

1. Presence of a prohibited substance in an athlete's sample
2. Use or attempted use of a prohibited substance or method
3. Refusing to submit sample collection after being notified
4. Failure to file athlete whereabouts information & missed tests
5. Tampering with any part of the doping control process
6. Possession of a prohibited substance or method
7. Trafficking a prohibited substance or method
8. Administering or attempting to administer a prohibited substance or method to an athlete

You can find the list of prohibited substances and methods on the internet, as it is updated every year by the World Anti-Doping Agency (WADA) and it's valid for every sport.

EUSA is active in Anti-Doping promotion, and has been a partner in the European Anti-Doping Initiative (EADIn) and Match point, supporting European-wide Anti-Doping mentality in the youth sector by establishing a moral tenor towards concepts such as Fair-play, sensitizing and raising awareness on all levels of the complex social environment surrounding the doping problematic, and implementing strategies to motivate young people to pass on the message and create a strong multiplying effect. Also, the International University Sport Federation (FISU) has been actively promoting sports without drugs, also at the university sports level.

EUSA is currently not enforcing doping tests at our events. In accordance with the national legislation of the host countries, however, doping controls may be implemented by the National Anti-Doping Agencies. If such doping tests are executed, the WADA rules and regulations are applicable to all athletes. Please remember that testing can be conducted in-competition and out-of-competition. If you are identified in a Registered Testing Pool (RTP), you must provide current and accurate whereabouts information.

What can you do to be an excellent athlete?

- Practice right and live healthy
- Get more information about the consequences of Doping
- Play fair and be a good role model to younger athletes
- Be committed to sport without doping

Doping? No, thanks!

6. Fair Play

Fair play is a core value of EUSA, deeply embedded in our mission and activities. In partnership with the European Fair Play Movement (EFPM), we actively promote sportsmanship, respect, and solidarity at all our events. For over 20 years, EUSA has championed these values, recognising fair play as the true essence of sport.

Fair play is present in sports as the unwritten rule, a moral value that represents the real essence of sport. It represents that opponents must be appreciated and in nowadays practising of sports, more than ever, it is vitally important to defend the values intrinsic to sport: respect for oneself and others, solidarity, and fair play.

Since 2007, EUSA has honoured outstanding acts of fair play with the Enno Harms Fair Play Award, named after our first President and a strong advocate for fair play. At each event, organisers, delegates, and participants commit to upholding fair play, with the oath of respect and integrity declared during the opening ceremonies.

The prestigious annual EUSA Enno Harms Fair Play Award is awarded to athletes demonstrating fair play during the matches, following the rules, and pursuing a “clean” game, and is awarded with a fair play recognition already during the event. EUSA Executive Committee members discuss the proposals received from all sporting events governed by EUSA in that year and select the team or individual to receive the Enno Harms Fair Play award, which is formally handed to them at a special occasion, usually at the EUSA Gala.

Fair play will remain a key focus at the European Universities Championships 2025.

Guided by EUSA's principles and the Olympic spirit, our events promote respect, equality, and non-discrimination, contributing to a more inclusive and peaceful society through sport.

We kindly invite all delegations to submit proposals for the **Enno Harms Fair Play Award**, recognising individuals or university teams who have demonstrated exemplary behaviour, integrity, and sportsmanship during the Championships. **To submit a nomination, please complete the official form via the following link:** <https://shorturl.at/YM29z>

Alternatively, you may access the form directly by scanning the QR code provided.

Let us jointly honour and celebrate those who embody the true spirit of Fair Play!

8. Eusa Incident Policy

One of the Fundamental Principles of Olympism is that “practice of sport is a human right” and that “every individual must have the possibility of practising sport, without discrimination of any kind”. This principle further states that this requires a behaviour based on “mutual understanding with a spirit of friendship, solidarity and fair play”.

EUSA considers sports as an active tool in the education of university students and aims at encouraging and supporting “the promotion of ethics, Fair Play, gender equity and good governance in sport” (EUSA Statutes).

With the EUSA Incident Policy, EUSA clarifies the expectations and consequences regarding the behaviour of different stakeholders at EUSA’s events to allow the creation of a safe and enjoyable environment.

1. Welcome messages

Message from the EUSA Technical Delegate of Karate

Dear athletes, coaches, officials, volunteers, and distinguished guests,

On behalf of the European University Sports Association (EUSA), I warmly welcome you to the EUSA Combat Championships 2025, here in the beautiful city of Warsaw!

As someone who has lived and breathed this sport for many years, it's a true privilege to support this event and witness the energy, passion, and respect that define university karate. This championship is more than a competition – it's a celebration of fair play, dedication, and the unique university spirit that brings us all together. I encourage you to enjoy every moment, make new friendships, and represent your universities with pride.

Give your best on the tatami, cheer each other on, and take in everything this experience has to offer – both in sport and beyond.

Wishing you great success, unforgettable memories, and lots of positive energy. See you on the mats!

Luka Požgaj

2. Introduction & History

Karate is a traditional martial art that originated in the Ryukyu Kingdom (modern-day Okinawa, Japan). It developed from native Ryukyuan fighting systems under the influence of Chinese martial arts, particularly the Fujian White Crane style. Today, karate is primarily a striking art, incorporating punches, kicks, knee and elbow strikes, and open-hand techniques such as knife-hands, spear-hands, and palm-heel strikes. Some styles also include throws, joint locks, grappling, and vital-point strikes.

With over 100 million practitioners worldwide (according to the World Karate Federation), karate is a truly global sport. It reached a new milestone with its Olympic debut at the Tokyo 2020 Summer Games, cementing its place in the international sporting community.

Within the university sport context, karate is a core component of the European Universities Combat Championships, organized by the European University Sports Association (EUSA). The 9th European Universities Karate Championship was held in Zagreb, Croatia, from 21 to 23 July 2023, as part of the inaugural EUSA Combat Championships. This multi-sport event brought together over 1300 athletes from 404 universities and 36 countries, across four disciplines: Judo, Karate, Kickboxing, and Taekwondo.

Karate was the most represented sport at the event, with 446 participants from 172 universities and 30 countries. Athletes from the host university delivered an outstanding performance, securing first place in the overall standings ahead of nearly 400 European universities.

With a total of 21 medals — including five gold, seven silver, and nine bronze — students from the University of Zagreb proved their strength and determination on home ground. Poland has a strong and proud tradition in academic karate. Polish student-athletes have earned numerous podium finishes at both European and global university events. The development of university-level karate in Poland is deeply connected to the activities of the Polish Academic Sports Association (AZS), which promotes martial arts across higher education institutions.

Polish academic karate continues to thrive thanks to its deep roots, the dedication of university clubs, and the success of its athletes in both kumite and kata disciplines.

3. Competition Information

Competition & training venues

Competition venue – Arena Ursynów

Ursynów Arena is a modern multifunctional sports facility located in the southern district of Warsaw. The court area features a high-quality sports floor suitable for a wide range of disciplines, meeting international competition standards. The hall can accommodate various configurations, including multiple tatami areas, basketball and volleyball courts, and other sporting setups.

The main tribune offers seating for approximately 2,000 spectators, ensuring excellent visibility from every angle. The arena is equipped with professional lighting and an advanced sound system, creating an optimal environment for both athletes and spectators.

Ursynów Arena regularly hosts not only martial arts events such as karate or judo, but also volleyball, basketball, and rhythmic gymnastics competitions. It serves as a training venue for numerous Warsaw-based sports clubs and is adapted to support both national and international level tournaments.

The facility includes athlete preparation zones, warm-up areas, VIP sections, and media support rooms, ensuring smooth event logistics. Thanks to its versatility, modern infrastructure, and convenient location, Ursynów Arena is considered one of the premier sports venues in the capital of Poland.

Competition area

Competition area includes the hall floor where 3 tatami mats are located. Only athletes and coaches escorted from the last call area by volunteers are allowed access to the fighting zone.

The warm-up room and the last call room are located on the first floor of the building.

The entrance to the spectator stands is also on the first floor of the building.

Training venues:

Participants will have opportunity to make trainings at conference room in Hotel ARCHE Polonez and at training area at Arena Ursynów

Training area – Hotel ARCHE Polonez

Training sessions on August 22nd and 23rd will take place at the players' and officials' accommodations, the ARCHE Polonez Hotel, allowing teams to seamlessly combine sporting and formal matters. Training sessions will take place in a designated room called "Zamek Janów Podlaski." The training room measures 120 m². Registration for individual sessions will be done via the registration form located in the "Trainings program" section. There will be one training tatami in the room

Training area – Arena Ursynów

The warm-up room at the Ursynów Arena is a 186m² space. Located on the first floor, it connects the meeting point to the starting line.

Regulations

International regulations

The organization of the EUC Karate shall be mainly based on the most recent Technical Regulations of the European Karate Federation (EKF).

Competition format

According to the Memorandum of Understanding between EKF and EUSA, the championship will be held according to WKF and EKF standards and rules.

Ranking and Seeding

Medalist from previous EUSA karate tournament (in this case EUG Miskolc-Debrecen 2024) are seeded with condition that they compete in the same category

Playing Scheme

The format of the tournament will be decided by CTC taking into consideration the number of athletes entered. Only one weighting will be organized for the whole competition.

Uniforms

All karate gi (kimono and protections) must be World Karate Federation (WKF) approved. Teams can only have university marks on their karate gi. All other markings must be removed from the karate gi. Medal winners are required to come to the medal ceremony in karate gi. Coaches are required to wear uniforms in final matches.

Referees

Each NUSA that has registered one or more universities competing with a minimum of 4 (four) competitors is obliged to send at least one judge with an EKF license; the relevant EKF license must be submitted within the Quantitative entry deadline. Accommodation and food for the referee must be provided by the Organizing Committee without charging a participation fee; a referee fee is not provided. Referees will be approved by the Technical Delegate in cooperation with the EKF Referee Commission according to the required quota and licenses. If the quota is not fulfilled, the OC will fill it with referees from the ranks of the national sports federation with a minimum title of the highest national rank.

Draw, Seeding

The draw will be done at the GTM using WKF approved software, taking into account the last EUSA Championships. Teams and individual competitors who have won a medal at the last EUSA Championship will have seed places in the draw if they have not changed category.

Financial Obligations

All karate gis (uniforms and protective gear) must be in line with the World Karate Federation (WKF). Team members are only permitted to have university logos on their karate gis, tracksuits, and t-shirts. All other markings must be removed from the karate gi. Medal winners are required to wear their karate gi at the medal ceremony.

2. Introduction & History

Judo was created in 1882 by **Jigoro Kano** as a martial art and a way of life. It distinguishes itself from its predecessors, primarily jujutsu styles like Tenjin Shinyo-ryu and Kitō-ryū, by emphasizing **randori** (free practice) over a strict focus on **kata** (pre-arranged forms). Kano also removed dangerous elements such as striking and weapon training from the competitive aspect of the art. The primary objective of competitive judo is to throw an opponent to the mat, immobilize them with a pin, or force them to submit with a joint lock or a choke. While strikes and weapons are included in some kata, they are illegal in modern judo competition and free practice.

Judo's status as a major international sport was solidified with its inclusion in the **1964 Tokyo Olympic Games**. This marked a significant turning point, and while it helped spread the sport globally, it also led to a greater emphasis on competition and scoring rather than purely educational and philosophical aspects.

European judokas are often characterized by a style that combines physical strength with technical versatility. They are known for their excellent gripping and throwing techniques, as well as aggressive and effective groundwork. As the sport has globalized, European judo has evolved, adapting to changing rules and tactics, but it remains one of the most popular and respected martial arts on the continent.

IX. Kickboxing

1. Welcome Messages

Message from the EUSA Technical Delegate of Kickboxing

Dear student-athletes, kickboxers, participants of the EUSA Combat Championships – Warsaw 2025

I am especially glad that as the EUSA Technical Delegate for Kickboxing, but also as the Technical Director of the WAKO World Kickboxing Federation, I can welcome you to the EUSA Combat Championships in Warsaw. Kickboxing is the third time in the combat championships program.

Kickboxing is a modern combat sport that has more and more fans in the world. In year 2021, the WAKO World Federation received full recognition from the International Olympic Committee and it is an even greater incentive for us to grow and be better and better every day and to expand among young people - from primary and secondary school students who make up the largest number of our members. to seniors and veterans, and among the student population, as well.

WAKO World Kickboxing Federation today has 134 national member federations from all continents and the competition program is so large that international and national tournaments with thousands of young kickboxers are organized every weekend somewhere in the world. Kickboxing has 7 disciplines, and at these Combat championships students will represent their universities in 4 disciplines - point fighting, kick light (on the tatami) and full contact and K1-Style (in the ring).

These student games in Warsaw will certainly be an incentive for kickboxing to spread even more in the student population and for even more kickboxing students to participate and represent their universities in the future.

I wish all participants a safe travel to the competition, a lot of sports luck, a pleasant stay in Warsaw and to return to their homes and continue their student obligations with fond memories of championship, Warsaw and Poland.

Romeo Desa

EUSA Kickboxing Technical Delegate

Message from the OC Technical Delegate of Kickboxing

Dear Athletes, Coaches, Guests, and Friends of Kickboxing,

It is with great joy and pride that I welcome you on behalf of the Polish Kickboxing Association to the EUSA Combat Championships Warsaw 2025. As the newly elected President of PZKB, I am honored to address you at such a special moment – here, in the heart of our capital city, where you are competing for the highest academic accolades.

Kickboxing is not just a sport. It is a way of life that teaches discipline, respect, humility, but also courage, strength of character, and pushing beyond one's own limits. Today, witnessing your commitment, preparation, and determination, I am deeply convinced that the future of this sport belongs to you – the young, ambitious, and talented athletes.

Events like this are more than just arenas of competition – they are a space where community is built, where mutual respect and the spirit of fair play are just as important as a point, a kick, or a winning round. No matter the discipline you represent – be it tatami or ring – we are united by a shared passion and pride in being part of the kickboxing family.

It is impossible not to mention the growing importance of kickboxing in the world of combat sports – we are part of the rapidly developing WAKO structure, recognized by the International Olympic Committee. Your participation in this championship is not only about competition, but also your contribution to the growth and promotion of kickboxing in the academic environment across Europe.

I would also like to take this opportunity to thank all the coaches, team leaders, referees, organizers, and volunteers – without your hard work, passion, and dedication, this event would not be possible.

Dear Athletes – I wish you safe, thrilling bouts and high-level performances that will be remembered not only for the results but for the heart and soul you put into this sport.

Keep your guard high – and your heads even higher. Poland welcomes you with open arms, and may Warsaw become a symbol of inspiration and sporting brotherhood for all of you.

With great respect,

Grzegorz Wrzesień

President of the Polish Kickboxing Association

2. Introduction & History

KICKBOXING is modern contact fighting sport, which includes several clearly defined disciplines:

POINT FIGHTING (PF),

LIGHT CONTACT (LC),

KICK LIGHT (KL),

FULL CONTACT (FC),

LOW KICK (LK),

K1 STYLE (K1)

MUSICAL FORMS (MF).

Kickboxing Disciplines

Kickboxing disciplines are divided into two main groups based on specific rules. The main characteristics that determine the group are the allowed hand and leg techniques, the force/contact level of the techniques, and the competition area.

The two main groups are:

1. Tatami Disciplines

- **Disciplines included:** Point Fighting (PF), Light Contact (LC), Kick Light (KL), and Forms (with and without music).
- **Rules:** In these disciplines, it is allowed to use hand and leg techniques with controlled force or "light contact." The primary intention is to score points by landing clean, fast strikes on legal targets. Knockouts are not allowed and can result in disqualification. The fighting area is a mat, also known as a **tatami**.
- **Forms (Musical Forms):** This is a non-fighting discipline where kickboxers perform a choreographed sequence of kickboxing techniques, often to music. The intention is to demonstrate skill, balance, power, and showmanship against an imaginary opponent. This discipline is also performed on a **tatami**.

2. Ring Disciplines

- **Disciplines included:** Full Contact (FC), Low Kick (LK), and K1 Style.
- **Rules:** In these disciplines, hand and leg techniques are used with full power. The basic intention is to defeat the opponent by knockout (KO), technical knockout (TKO), or by winning on points. The fighting area is a boxing-style **ring**.
- **K1 Style:** A key difference in K1 is that it allows for knee strikes, and often leg kicks to the inner and outer thigh, which are typically prohibited in Full Contact.

For the first time, kickboxing, with disciplines including Point Fighting, Kick Light, Full Contact, and K1 Style, was part of the 2019 EUSA Championships. This event was part of the four-sport 2019 Combat Championships, which also featured Karate, Judo, and Taekwondo. The championships took place in Zagreb, Croatia.

More than 1,300 participants were involved across all four sports. Kickboxing contributed 237 participants from 101 universities and 20 different countries.

At the conclusion of the fourth day, the University of Physical Education from Hungary was the overall winner, securing five gold medals and taking the honors in the mixed team competition. They were followed by Charles University from the Czech Republic, Ukraine's Ivano-Frankivsk College of Physical Education, the National and Kapodistrian University of Athens in Greece, and Ireland's Technological University Dublin, which all finished with the same number of points.

EUSA TECHNICAL DELEGATE	Mr. Romeo Desa
OC TECHNICAL DELEGATE	Mr. Grzegorz Wrzesień
LOCAL ASSISTANT	Mrs. Agata Prokop / Mr. Krzysztof Kaproń

General information

Competitors from the same University in the same weight category must be placed in separate parts of the draw (one in the upper half, the other in the lower half). This ensures they can only meet in the final. If there are more than two kickboxers from the same University, they cannot be scheduled to meet in the first round, provided there are at least an equal number of competitors from other universities.

Every draw list must contain the following data: the name of the tournament, location and date, discipline, gender, age, weight division, competitor's full name, club or nation, and fight number.

All draw lists must be printed in three official copies: one for the Chief Referee, one for the official table, and one for the notice or bulletin board. All three lists must be identical. Any changes must be made on all three copies and validated with the signature of the Chief Referee. Unofficial copies of the draw lists will also be distributed to University team chiefs.

Completed official copies with results, a stamp, and the Technical Delegate's signature are considered official WAKO documents. They will be archived for a minimum of two years.

No alterations can be made to the draw list once it has been produced by the Organizing Committee. The only exception is in the case of a material error (e.g., wrong weight category, age division, or discipline), which must be approved in writing by the Chairman of the Organizing Committee.

Protests

Procedure of prompting the protest

Competition protests / appeal

- The written protest must describe clearly the problem. The Chief referee must deliver the protest to the Appeal protest Committee who will consider the problem and handle it immediately.

Official Appeal Protest Committee

- Official Appeal protest Committee is composed of the following:
- Chairman of Referee Committee of ring or tatami
- Supervisor / Observer
- Technical director (who will act as a chairman of Appeal Protest Committee)

No two members of Appeal Protest Committee may be appointed from the same nation.

The Chairman of the Referee Committee shall appoint three additional members, designated numerically from 1 to 3, who will serve as automatic substitutes. These substitutes will replace any of the originally appointed Appeals Jury members in the event of a conflict-of-interest situation. Such situations include, but are not limited to, shared nationality, a familial relationship, or direct involvement in the alleged incident or issue under protest.

The following sequence must be followed when making a protest. It is hoped that at each stage the priority is for an amicable resolution, but if not then.

Procedure of prompting the protest

A coach or their representative who wishes to file a protest must declare their intention immediately after the conclusion of the fight.

They must obtain an Official WAKO Protest Form from the Chief of the ring or tatami, complete it, and return it to the same official within **10 minutes** of the fight's end.

The Appeal Protest Committee will examine the protest and issue a decision no later than **15 minutes** after receiving the form. The entire process, from submitting the form to receiving a decision, is intended to be completed within 15 minutes.

The Official Appeal Protest Committee will review the protest and its decision will be considered final. If the protest is successful, the initial decision will be changed.

Irregular protests

Irregular protests regarding disagreements of decisions, where kickboxer's protests by delaying further program in the ring / tatami, such as sitting down in the ring / tatami, decided by himself or stimulated by his coach / team to do so is not allowed

In case of such irregular protest, reaction will be made by Chief referee, Supervisor and Technical director of ring or tatami.

The consequence for such behaviour can be that the total team of the discipline can be excluded.

In case of further escalation of conflict due to this action and if security staff has to intervene, it will lead to immediately disqualification of the whole national team.

The decision of above situation will be made by TD with EUSA representative and chief referee.

A protest will only be accepted in a written letter and a protest will not be handled if actions mentioned above are in place.

Video evidence

- Video footage is not applicable to WAKO competition events.
- Video footage may not be used to resolve or review any queries, complaints or points of clarification.

Special violations of rules

If a kickboxer, coach, or an entire team protests a decision by entering or not leaving the ring or tatami immediately after a fight, the interim committee (composed of the Technical Delegate, the EUSA Representative, and the Chief Referee) is authorized to disqualify the entire university team.
